Get to Know DimensionU

Video Games that make math fun.

DimensionU has developed a digital game-based tool which is proven to increase and engage student learning. Our games are available online and for mobile devices along with a complete online reporting module. Students can learn and retain knowledge faster with DimensionU ... anywhere, anytime and because they want to!

DimensionU games are designed to improve and reinforce **over 400 math and literacy skills**, aligned to Common Core and State Standards, in the following topics:

### MATH
- Number & Operations
- Algebra
- Geometry
- Measurement
- Data Analysis & Probability

### LITERACY
- Language Conventions
- Vocabulary
- Parts of Speech
- Writing Process
- Reading Process

The **DimensionU Bundle**
- Access to Web and Mobile Games
- Teachers App
- Online Reporting
- Access to Math and ELA Curricula for all grades and levels offered
- Includes Customer Support and account set-up
- Pricing available per student or per site

With our Teachers app, educators can set game curricula, monitor student play and much more, right from their mobile device or web browser.
